THURSDAY, PEBRUAR : 148

FROM ST. 1 Ot is.

But in the midst of the fighting the steam-boats passed up stream. The next day, the 15th, the attack was renewed, when Shelby, finding his prey had alipped him, felt breke and our forces took, possession of his aba-tance of official mormatim received from Little Rock. Shelby's presence so far northward shows that the robels are received to keep a bold from in Arkansa, notwithstanding their defeats and the title demoralization of their cause among the peo-ple.

icanoralization of their cause among the peopeople of the course among the peopeople of the course of the financial course and work was made by the telegraph of the
flapatch amounting the arrival of the famous sack of austin familiary Fale done in this
sity and its proposed sale for the benefit of
the Soldiers' Orphans' Home. The dispatch called it the 'farmers' sack, and gave
the amount which it had yielded at \$105,
when it should have been \$165,000. Mr.
Gridler, the originator of the enterpoles, has
given the enormous sums raised on the flow
to the Sanitary fund. By the way, the Soldiers' Orphans' Home, now open in this
city is an institution of importance to the
whole Northwest, as the children of de. asset
soldiers who were in the army at the time of
death, or died from the effects of wounds received in service, are entitled to admission. The
State has granted the sum of \$50,000, payable
in ten institution, and it is bound to
prosper. The complaint sgaings tour kindbearied President's interference with military executions of swites, hormers and perjured
Dushwhackers, continues unabated. It seems
that in several cases Mr. Lincoin has suspended execution in cases where he had previously amongree the

de-only two severely—on board the Massacott, which was some distance behind the Orn ndags.

The Amendatory Enrollment Hill.

The following is the bill introduced by Mrc Wilson in the Senate on the 24th ult., in addition to the several acts for curvelling and calling out the national forces, and for other prirposes:

Be it enected by the Senate and Those of Representatives of the United States of Ambrica in Unique assembled, That from and after the papersons.

Six 5. And be if further smooted, That no person oving millitary service shall be exampted from his billity in perform the same on account of furnishing as substitute for the navy, males the millitary to perform the same on account of furnishing as substitute for the navy, males the millitary in perform the same on account of furnishing as substitute for the navy, males the millitary in perform the same on account of furnishing agent, subtlitute brokers, or other person, convict, or person the charged with crime, or person, and and the structure of the commission, be fined not be much, or who shall called, or deprive appropriate or substitute of any portion of the Siake, local, or United States, and the substitute of the portion of the south of the control of th the State of Bilinois, or such company as may be incorporated for that purpose, in the construction of said works, the same of twe militons, in bonds of the United States, payable the property of the United States, payable the 18th of States of the United States, payable the 18th of States of the United States, payable the 18th of States of the United States, payable the 18th of States of the United States and Issued in the usual unament, the interest and principal of which said bonds to be payable out of any moneys to he harester appropriated by Congress, shall be delivered by the Treasurer of the United States to the State of Illinois, upon the following conditions, to be assented to by the lagislature of the State of Illinois and which shall be embraced in a contract between the United States and said State of Illinois, before the delivery of any of said bonds, to wit:

merries examination of the body, and founce nearly three cunces of landaum in this stomach, which was the cause of death. The following is a full copy, of the letters left by the deceased, and which were taken possession of by the Coroner:

New York, January 25, 1865.

My Dan Sisten-Do not fred or worry about the. I want to be laid beside my poor mother, the hard prace. Gove alone knows the sorrow of my heart. I have been jeared in a peculiar position in the best period of the peculiar position. I have been faint-hearted and generous. I have

The Richmond Engineers and devestic an happiness prompted Mr. Meades to destroy his like Confederate Finances.

The Richmond Engineers are a panic continues in the Gold market, which is partially attributed to the scarcity of Confederate motes. Confederate money is in great demand, which is daily becoming more stringent, the ultimate effect of which must be to establish some well defined relation between paper and specie, and overruie the combination of brokers to put up gold to asseniative paper and specie, and overruie the combination of brokers to put up gold to asseniative figures. Gold sold Monday at 35, and year large quantity of gold and to be nominal. It is known that the Government has accumulated at Richmond, within the past few days, alarge quantity of gold and it is surmised, to the great terfor of the engrossers of specie, that the Government may throw some of it on the market, if it has not already done so and put the price at its own figures. The Tankes Government has ustained its finances because it has been the great operator in the gold rooms at New York, and has always been ready to "bear" the market when emergency requires. There is no doubt that our Government might control, almost entirely at its pleasure, the price of gold, considering the limited amount of it in the bauds of private parties for speculation; far too lunited to make it a matter of "buils and bears."
